

# HCL AND RUBRIK ACCELERATE YOUR JOURNEY TO HYBRID CLOUD

Rubrik delivers radically simple data protection that does more. Modernize and automate data protection with one solution that covers workloads across on-prem and the cloud.

### Radical Simplicity

Single SLA policy engine automates protection

### Designed for Cloud

Cloud-native backup and recovery

### Recover Fast

Near zero RTO with Live Mount

### Fast Ransomware Recovery

Encryption & immutability secures data in flight or at rest

### Self-Service Orchestration

API integration with top orchestration tools

HCL has a robust cloud services ecosystem and spectrum of services to enable rapid IT response. Whether it is scaling up of resources or optimizing your operations, HCL can deliver a smooth experience for you and your customers.

### Cloud Platform Set-up

Design and build modern hybrid cloud solutions

### Infrastructure Automation

Design and integration of AI-powered automation

### Near-Zero Touch Ops

Cloud operations services built with extreme automation

### Service Management

ITSM frameworks compliant with ITIL and IT4IT

### Service Orchestration

Your Everything-as-a-Service (XaaS) vision realized

## CUSTOMER RESULTS

**~40%**
